Council Passes By-law to License Outside Trucks

The regular meeting of City Council was held Tuesday evening, with all members in attendance, excepting Ald. MacAllister.

After the adoption of the minutes of last regular and two special meetings, Dr. McLaughlin addressed Council respecting the reduction in salary, protesting that the Council was not living up to the arrangements made the first of the year. Referred to Health and Relief Committee.

Mr. City Solicitor wrote respecting a slaughter house in city, advising the seizure of property for taxes. Proceedings will be taken to seize property.

A letter from Hon. R. B. Bennett, Prime Minister of Canada, re public holiday on Dec. 26th, as recommended by Wetaskiwin Council, was received and filed.

C. H. Russell, solicitor, wrote advising that title to property has been taken on account of indebtedness for Sanitarium patients. A report on other cases was also given. Accounts to the amount of \$250.50 in full payment for three patients were passed for payment, and City will proceed to collect from relatives.

The Fire Underwriters' Association reported that an agent would be in Wetaskiwin about the middle of April for inspection of fire fighting appliances.

The Department wrote advising that \$15.00 a month was passed for one case of relief. Received and filed.

The application of J. W. Matson for old age pension was approved.

The Solicitor wrote re account of patient in Royal Alex. Hospital. Suit is threatened and solicitor was instructed to look after interests of City.

The U.F.A. Co-operative Association applied to erect a gasoline, oil and kerosene warehouse near the store. Referred to Fire Committee with power to act.

Accounts to the amount of \$272.25 were passed for payment. The firemen's payroll amounting to \$58 was passed for payment.

Chief of Police Kingzett wrote respecting proposed salary reductions. The excellent work of the Chief of Police is appreciated by Council, but the reduction in salary cannot be changed owing to economic conditions. It was also pointed out that other city officials had accepted a temporary reduction of ten per cent in their salaries.

The report of Chief of Police Kingzett for March was received and filed.

Fire Chief Montgomery submitted report for March. Received and filed. Bylaw No. 704 amending the license bylaw providing for the licensing of trucks conveying goods from and to the city was read three times and finally passed. Farmers are exempt.

The License Committee and City Solicitor will consolidate the bylaws of the city.

The Public Works Committee was instructed to drain several streets where water is damming roads.

J. E. Fraser reported that collections of taxes for first three months of 1931 was \$17,800, as compared with \$6,000 last year.

After discussion, it was agreed the wages of Wm. Ragan, who will be given permanent employment, be \$75 a month, and that transient employees be paid \$30 an hour.

The meeting adjourned.

FARM BOARD PREPARED TO HOLD WHEAT SURPLUS

Washington, March 25.—The Federal Farm Board is prepared to hold indefinitely its pile of more than 200,000,000 bushels of wheat, an administration spokesman revealed today.

There is no intention of unloading the cache in any spot which would depress existing prices, this authority declared.

If it can be marketed from time to time without adversely affecting prices, the administration will permit such action, it is said, but that the huge supply the government obtained in last year's market will not be permitted to affect the existing market, according to those in a position to know.

The administration feels so strongly on this point that it is prepared to charge the whole amount up to experience, it is said. The closest advisers of President Hoover believe that the amount of upwards of \$200,000,000 involved is not too costly if it will prove the utility of "attempting to interfere with the law of supply and demand."

A London manufacturer has succeeded in producing steel so hard that the sharpest file has failed to scratch the surface of the metal.

Weddings

ANDERSON-JOHNSON HOLTE-GARDINER

A quiet double wedding was solemnized at the Manse, Wetaskiwin, on Wednesday, March 25th, at 3 p.m., when John Anderson, only son of Mr. and Mrs. John H. Anderson, was united in marriage with Lillian Viola Johnson, only daughter of Mr. and Mrs. Carl O. Johnson, and Carl John Holte, son of Mr. and the late Mrs. Neils Holte of Provost, was united in marriage with Mabel Sadie Gardiner, only daughter of Mr. and Mrs. Thomas Gardiner, all of Wetaskiwin.

The brides appeared very charming. Miss Gardiner in a gown of printed georgette and Miss Johnson in a handsome blue flat crepe, and each wore a necklace of pearls.

Rev. A. L. Elliott performed the ceremony in the presence of a few intimate family friends.

Mr. and Mrs. Anderson will make their home on their farm at Chesterwood and Mr. and Mrs. Holte in Wetaskiwin.

GOVT TO ADVANCE SEED TO FARMERS

Edmonton, March 27.—Provision for making advances of seed grain to farmers requiring this for their 1931 crops is made in a bill given second reading in the legislature Thursday afternoon by Hon. R. G. Reid, provincial treasurer. This assistance will be given only to farmers who are unable, through crop failure or other adverse conditions, to procure necessary seed grain through their own resources, and advances for this purpose will be handled through the municipalities which will share the cost with the provincial and federal governments.

A definite limit is set as to the value of grain which will be provided. This is placed at \$75 for a quarter section; \$125 for a half section; \$175 for three-quarters, and \$225 for a section or more of land.

Use of grain so advanced is limited strictly to seeding of land, and no such seed will be provided after May 15, 1931. Municipalities, as protection against loss for their share of the liability are empowered to take interest-bearing promissory notes in addition to a lien upon all crops grown in 1931 and 1932, this to have priority over all other claims. Money is to be loaned to the province by the federal government at an extremely reasonable rate of interest to assist in financing this assistance, stated Mr. Reid.

ANGLIANS PLAN YOUTH CONFERENCES EASTER WEEK

Under the auspices of the Girls' Council of the Women's Auxiliary, a Girls' Conference is arranged to be held in Edmonton on April 10th to 12th. At the same time a committee of the Diocesan Board of Religious Education is arranging a conference of teen-age boys. The two conferences, while quite separate affairs, plan several things in common.

The Boys' Conference has as its theme "Youth and the Church." Leaders will address the conference upon such subjects as "The Junior Brotherhood of St. Andrew," "After Confirmation, What?" "The place of the boy in the Church."

NEW ACT REDUCES CORPORATION TAX

Edmonton, March 26.—A step toward encouragement of industrial development will be taken by the government. Premier Brownlee announced Wednesday afternoon in the legislature, in introducing the Corporation Taxation Act. This measure, he stated, would provide for a reduction in taxation imposed on the whole capitalization of companies operating branches in this province, and under new act only that share of the capital used in the Alberta branch would be taxed.

The new provincial Debt Adjustment Act, widening the scope of this legislation, passed through committee stage with little discussion. This measure did not differ greatly from that in effect for some years over part of the province, said the premier, and was very similar to that recently adopted by the Saskatchewan legislature.

WETASKIWIN BOARD OF TRADE

The next regular meeting and election of the Wetaskiwin Board of Trade will be held in the Driad Hotel on Tuesday evening, April 7th, at 6:15 o'clock. The speaker will be Hon. Duncan Marshall, former Minister of Agriculture for Alberta, and one of the foremost agriculturalists in the Dominion of Canada.

Every member is urged to make every effort to attend this meeting, and to bring any person, whether a lady or gentleman, who may be interested in the activities of the Board.

Use The Times Want Ad column.

60TH ANNIVERSARY OF WEDDING OBSERVED BY MR. & MRS. BARRETT

Surrounded by their children, grandchildren and great grandchildren, Mr. and Mrs. Thomas J. Barrett of the Rene Le Marchant Apartments, Edmonton, on Saturday, March 14, celebrated the Diamond Anniversary of their wedding. Sixty years ago the first marriage ceremony which united the happy couple was performed in Montreal, Quebec.

Mrs. Barrett, who was born in Galway, Ireland, was a daughter of Captain William Smith, of the 10th Regiment, and spent ten years of her life with her parents on the Mediterranean coast, five years at Malta and five years at Gibraltar, coming to Montreal in 1866, where her father was stationed. Here she met Mr. Thomas Barrett, and five years later, in 1871, she became his bride. Mr. Barrett was the son of Mr. and Mrs. William Barrett, of Williamstown, Glengarry County, Ontario, and a graduate of Regiopolis College, Kingston, commercial class.

His marriage Mr. Barrett engaged in business in Tilsonburg, Ontario, where they resided for twenty years, later moving to Wetaskiwin, coming thence to Detroit, Mich., coming to Wetaskiwin, Alberta, some twenty-eight years ago. After ten years in Wetaskiwin, Mr. and Mrs. Barrett came to Edmonton and have resided there since 1913. The family circle consists of two daughters, Mrs. P. L. Ryan of Sarnia, Michigan. There are ten grandchildren, nine of whom are living in Edmonton, also two great grandchildren. A son, William Barrett, a Great War veteran, passed away at Rochester, Minn., some eleven years ago. The Times joins with Mr. and Mrs. Barrett's many friends in extending congratulations and best wishes.

SYSTEMS OF SCHOOLING SUBJECT OF ADDRESS AT W.I.

Although the attendance at the last meeting of the Wetaskiwin Women's Institute was not as large as usual owing probably to the inclement weather, those present listened with interest to a very interesting address given by Mrs. E. E. Scott, of the "Systems of Schooling." All felt that Mrs. Scott's address was in a position to speak with authority on this subject, as until her recent marriage she taught in different High Schools in the Province including our own.

Miss Ethel Sharlow sang a solo, accompanied by Miss Florence French. Miss Marie Nowell played a piano number, while Edna and Helen Cairns gave a sketch.

The whole program was under the direction of Mrs. B. Nowell, Convener of Education and Better Schools.

The sum of \$17.00 was realized from the sale of tickets on the bridge set and lace for pillow slips. Mrs. Blackwell holding the lucky number for the latter. Some of this money will be used for the purchase of a trophy to be awarded at the School Music Festival.

Plans were made for redecorating the furnishings of the Institute room in the local hospital with funds received from the telephone bridge, which was well attended.

At the close Mrs. Frank George and Mrs. Robert Sauer served tea.

TWO FIRES BROKE OUT ON THURSDAY LAST

At five minutes after twelve on Thursday last, the ringing of the alarm warned the citizens that a fire had broken out in the building owned by R. M. Angus next to the Audien Theatre. The fire was upstairs in the rooms used by the Girl Guides, and it is supposed to have started from a gas ashes left in a wooden box. The blaze was quickly extinguished, but we understand it took about \$300 to repair the building. There was no insurance.

Shortly after six o'clock on Thursday evening last, the brigade was called to extinguish a fire which had broken out in the Wetaskiwin Free Press office, from an unknown cause. The fire was quickly under control but smoke did considerable damage to the stock. We understand the adjusters allowed \$1395 for the damage done.

The Wetaskiwin Furniture Exchange which occupies the same building, have been allowed \$450 damage to their stock on account of smoke.

GOOD FRIDAY

Friday of this week is Good Friday, and will be generally observed as a holiday. Next Sunday is Easter Sunday, when all churches in the community will hold services appropriate to the occasion.

Property to the value of \$37,819.55 was stolen in Calgary during February, of which \$34,227.99 was recovered by the police.

Town Topics

Mrs. E. Merner spent the weekend with her mother, Mrs. E. Campbell of Edmonton.

Berthanna Revis is spending a few days with her uncle and aunt, Mr. and Mrs. E. Merner.

Mrs. B. D. Howarth, who has been visiting friends in Edmonton, returned home on Saturday.

Mrs. C. E. Compton was visiting her daughter, Mrs. (Dr.) P. Melling, of Ponoka, for a few days last week.

The W.M.S. are holding their Easter Thankoffering meeting in the United Church on Tuesday, April 7, at 3 p.m.

The Swedish Lutheran Ladies Aid will meet in the Church parlors on Wednesday, April 8th. Everybody welcome.

B. W. Bellamy was at Calgary this week, attending a meeting of the officials of the Amateur Athletic Association.

The schools in the city close on Thursday evening of this week, for the Easter vacation, and will not reopen until April 13th.

Is Wetaskiwin to have a good baseball team this season? Some of the neighboring towns are making preparations for the coming season.

The Hospital Ladies' Aid will meet in the nurses' sitting room on Tuesday, April 7th, at 2 o'clock for sewing and at 4 o'clock for the regular business meeting.

The regular meeting of the I.O.D.E. will be held at the home of Mrs. W. H. Cook, on Tuesday evening, April 7th, at 8 o'clock. All members are requested to be present.

Attention is directed to the final debate of the U.F.A. Debating League, which takes place in Wetaskiwin on Monday, April 13th. The teams debating are Verdun and Hildaide.

Mr. C. F. Pennington reports the arrival of a litter of young porkers to the number of 20. There has been only one casualty to date. The mother and seven offspring are doing nicely, thank you.

On Monday, April 20th, the W.M.S. of the United Church are sponsoring a dramatic recital by Miss Theresa M. Siegel. Miss Siegel will give a musical program of humorous, dramatic and inspirational stories.

Nick Page, who underwent a very serious operation in the University hospital, Edmonton, recently, returned home on Thursday last. He is feeling fine, and expects to resume his business as soon as possible.

The Wetaskiwin "Business Girls' Club will hold their regular meeting at the Driad Hotel Club rooms on Wednesday evening, April 8th, at 8:30 o'clock. Mrs. A. E. Wynne will speak on "Painting and Weaving." Prospective members welcome.

Gordon Provo, who has been in charge of the Red & White grocery department here for some time, left on Wednesday for Edmonton, where he has accepted a position with a wholesale fruit firm. His successor is Mr. Mickelson of Edmonton.

The equipment for the Driad Hotel Gymnasium, including trapezes, ropes, boxing gloves, etc., have arrived and the senior classes will now undertake thorough systematic training. Over one hundred and forty boys have signed up and the gymnasium is now becoming very popular with the younger people.

Mrs. W. P. Poops returned from Edmonton on Sunday morning. She had been in attendance on her daughter in an Edmonton hospital for some time. Their friends will be very pleased to know that Betty has improved so much that she has been able to leave the hospital and return to Hardisty—Hardisty World.

Mrs. C. Berry entertained at a delightful miscellaneous shower in honor of Miss Lillian Johnson on Tuesday, March 24th, when a number of ladies and girl friends of the bride-to-be were present. The afternoon was spent in contests, and Miss Johnson returned with a number of beautiful and useful gifts, after which the hostess served a delicious buffet lunch.

Mr. and Mrs. J. T. Rae, who have been spending the winter in California, returned to the district last week, and are moving on their farm, two miles south of the city, where they expect to spend the summer. Mr. Rae states that the weather in California was very wet this season, and those who remained in Alberta enjoyed better weather than those who went south.

A new post office was opened at Lloydminster last week at a cost of \$65,000.00.

Alberta House Voted for Pegged Price for Wheat

BELIEVE ANCIENT CONFIDENCE GAME AGAIN ATTEMPTED

Edmonton, March 31.—Detectives of the city police believe they made a big haul Monday when they arrested three men in a room in a city hotel who were allegedly trying to convince a local resident that they could make \$1,000 worth of counterfeit bills for the stranger for a consideration in real cash. The names of the three arrested are: William Hoffman, Calgary; Archie Spurgeon and Walter Kirby, both of Edmonton.

Exhibits seized by the detectives included two \$1 bills, one of which had been allegedly defaced to make its serial number correspond with the other so that it would appear as though the second bill was a reproduction of the first bill.

Other items used in the alleged "bumo game" was a thick wad of pieces of newspaper cut to the size of bank notes; some pieces of plain white bond paper also cut to the size of bank notes.

Fourteen bottles of various colored chemicals were also seized by the two detectives, and a wide rubber band, said to be for the purpose of holding the real money and the blanks together for the purpose of "making" the other money.

BRITISH INVENTION TRANSMITS 90,000 WORDS IN ONE HOUR

London, March 26.—A method of transmitting facsimile messages at the rate of 90,000 words an hour was demonstrated for the first time Wednesday at the laboratories of the International Telephone and Telegraph Company. Roughly, the method used is to pass a typewritten or printed page under a scanning beam, which records the image on sensitive paper in the receiving machine at the other end of the wire.

An improved model, which officials said would soon be ready for operation, would transmit, they said, twice as much as the model demonstrated.

The device can transmit over radio, land telephone lines or any line capable of carrying the voice, but not over cables. Its use is confined to black and white. It will not reproduce half-tone.

WETASKIWIN BUSINESS GIRLS ENTERTAIN MANY FRIENDS

The Wetaskiwin Business Girls' Club entertained at bridge and dancing in the Driad Hotel club rooms, Wednesday evening, March 25. Patronesses for the evening were Mrs. J. E. Burkholder, assisted by Mrs. Rodell.

Honors at bridge were won by Miss Geneva Recknagle, and Mr. J. F. Ingles; consolation, Miss A. Hoare and Mr. Z. Clelland. Special prize, W. J. Bieler.

Among those present were: Misses F. Cornell, E. Johnson, E. Liveridge, E. Spencer, E. Felland, D. Gilchrist, E. Abousaify, G. Asp, Z. Weiler, M. Owen, V. Greiner, E. Christie, J. Barker, J. McLean, N. Irvine, G. Christie, N. Giddy, E. Walker, P. McWhinnie, P. Maynard, D. Hanna, F. Williams, P. Rankin, C. Allan, E. Mitchell, L. Gordon, M. Johnson, F. Walker, J. Walker, O. Kuehn, H. Switzer, G. Recknagle, D. Krutzfeldt, F. Recknagle, H. Heath, E. Davies, E. Corbett, H. Hanson, M. Ellis, E. Redden, S. Gullekson, M. Smith, A. McNeil, J. Angus, A. Brodersen, A. Thirk, A. Hoare, G. Bonnyman, K. Kelley, A. Gibson, F. Kelley, M. Spencer, B. Abbott, L. Felland, M. Henderson, A. Vold, G. Robinson, H. Ryan, M. Gullekson, G. Rimmers, R. Bye, A. Chapelle, A. Calles, L. Thompson, M. Lundell, Messrs. M. Ayousaify, C. Patterson, Z. Clelland, R. Mary, E. Brickman, H. Grant, E. Abousaify, S. D. Thomas, Byron Richards, D. Montgomery, J. Abousaify, E. Peterson, H. Grabham, L. Greiner, T. Malmes, O. P. Strand, C. Waterston, L. Angus, E. Schneek, R. Angus, R. Best, W. Waterston, G. Abousaify, H. Tofte, R. Liveridge, W. Bieler, D. Wing, W. Shields, L. Wilson, R. Fletcher, J. MacEcherna, A. Best, R. McNeil, G. Farewell, E. Switzer, R. Krutzfeldt, G. Provost, C. Compton, N. Jorgenson, M. Merner, H. Burkholder, F. Evans, J. Ellison, E. Lindskog, J. Rae, A. Gibson, E. Lundell, G. Wilson, J. Pountney, C. Greenwood, A. Watson, H. Lundell, D. Brandt, S. Stolee, G. R. Mavor, B. Moyer, G. Butler, M. Butler, M. Cummings, C. Abousaify, E. Thirk, H. Hoare, J. Ronnie, M. Thompson, T. Thompson, C. H. Russell, W. Reed, S. Campbell, E. Thirk, B. Thirk, W. Redman, A. Abousaify, F. B. Facey, J. Ingles, E. Enockson.

Adolph Worm, of Gramingham, Mass., saying that his present name is a source of great and continued embarrassment, asked for the legal right to change his name to Warren.

Edmonton, March 20.— Alberta's Legislature prorogued Saturday night, a few hours after supporting Premier J. E. Brownlee's stand that the Dominion Government be requested to "peg" 1931 crop wheat prices at 70 cents a bushel. Approval by a vote of 37 to 15 was given a sub-amendment by the Premier over a motion which merely asked the Canadian Government to provide farmers with "a reasonable profit" in future years.

Premier Brownlee foresaw a dangerous situation in Western Canada next fall unless farmers were assured a profit on their grain. He still believed the Dominion should have fixed wheat prices last fall, on request of the prairie premiers, and steps in that direction should certainly be taken by the Government this fall.

The West should make a uniform demand for a minimum wheat price to the Dominion Government, the Premier maintained. Motion of a Government member, A. M. Matheson, Vegreville, calling for a "pegged" price of 55 cents on the 1931 crop wheat, was withdrawn in favor of Premier Brownlee's proposal.

Prorogation ceremonies took place after morning and afternoon sessions of the House, Saturday. Lieutenant-Governor William Egbert giving royal assent to a large number of bills.

VIMY TUXIS HAVE SOCIAL EVENING

The Vimy Tuxis Square spent a very enjoyable evening on Tuesday, March 24th, at the home of Mrs. Lord. Fred Lord acted in the capacity of host, in a manner which was highly pleasing.

The evening opened with the regular Tuxis ceremony, with minutes, Bible study and business discussion following. The day of meeting was changed from Tuesday to Wednesday. The evening was then put in charge of the host, who first gave the fellows an intelligence test on their musical ability or abilities, if such existed, lost their and crochets were also played. Refreshments were served and then the boys had an intelligence test in naming apples. The remainder of the evening was spent in telling jokes and doing sleight-of-hand tricks.

The group expressed its appreciation of having had a very enjoyable evening.

KIWANIS CLUB HOLDS GOOD BUSINESS SESSION

At the weekly luncheon of the Wetaskiwin Kiwanis Club on Tuesday evening, several matters of business were discussed. The report of the committee in charge of Ladies' Night showed that the affair was conducted without financial loss, and it was recorded that the occasion was one of the best ever held by the Club. The Club objective for the year was considered and it was the consensus of opinion that the boys camp at Mac-O Beach should be conducted again this summer, and a committee will be appointed to consider the matter and bring in a report at a later date.

President J. E. Fraser, presiding, Stewart Campbell rendered a solo, and Mrs. McMurdo was the pianist.

TRAIN CHANGES TAKE PLACE ON SUNDAY NEXT

Some important train changes become effective on Sunday next, when the Hardisty local train will be discontinued.

Train No. 524, which now leaves Edmonton at 7 o'clock a.m., will leave one hour later, and will depart from Wetaskiwin at 9:21 a.m. instead of 8:23 as at present. This train will arrive at Calgary at 2:10 p.m. and will make the run from Edmonton to Calgary in forty minutes less time than provided for in the winter schedule. We understand several other local trains in the west have been reduced to three days a week, while others have been cancelled. The reason given for this is that the C.P.R. finds it necessary to retrain until the economic business conditions are improved.

Spring was officially ushered in on Saturday, March 21st, with real spring-like weather. The recent snows are melting and making wheeking bad in spots but the sunny Alberta skies will soon dry them up. Preparations are being made for the beginning of spring work. Ducks and crows are reported back in some parts of the district, while gophers have been out every once in a while during the mild winter which is now drawing to a close.

THE WHY OF HARD TIMES

There is a good deal more truth
than jest in these words of an ex-
change:

"What makes hard times our
highly artificial and foolish stand-
ard of living. The best practical
farm buildings were built and the
most stable businesses of the country
were established when wheat sold
for 50 cents a bushel, when oats
were 20 cents a bushel, and dressed
hogs sold for \$3.50 a hundred weight
—but in those days folks baked
their own bread, killed and cured
their own beef and pork and did
their own work. They rose at early
dawn and were snoring soon after
sundown. In the winter time they
cut wood, did a good stunt at team-
ing, fed cattle, stayed home at night,
read good books and studied the
weekly papers, their only diversion
being an occasional party. There
were those it is said who hit the
prime time path, but they are long
since dead and forgotten. All that's
the matter with us just now is that
we're paying the piper who was in-
vited in when there was lots of
easy money. We got into the way of
eating both butter and jam on our
bread and are now kicking ourselves
because we must eat peace bread
three times a day for a rarity. If
some of the good folk who made this
section of the province proverbial
for its prosperity were to return
they'd laugh themselves sick as
some folks complain about their in-
come. It's not the income that's at
fault. It's the outgo—that's the rub."

It was that system of early to
bed, early to rise, practised by our
fathers, that made them
healthy, wealthy and wise.

More than that, they had an in-
born sense when it came to money
matters, and they had a horror of
debt. They believed in incomes, and
having worked to secure them they
knew the value of money. Very
few of them spent a quarter before
they earned a dollar.

We, in this generation, have got
away from all that. We want to eat
cake and have it too, and we are
far too fond of jam. We want to
spend before we make, in fact,
spending has become one of life's
main objects. And we are none too
particular whose money we spend
either, borrowed money is just as
good as our own for the purpose.

It is no doubt, a pleasant way to
live, but there comes a day when
the outgo has so far exceeded the
income that money and stores are
all exhausted. That day is called
hard times, and having reached it,
we should know and face the causes
thereof.—Huron Examiner.

APPLIED ADVERTISING

Advertising is being applied in
countless new directions, and more so
during the present financial depres-
sion than any other time in the
world's history. Today advertisements
are used with messages to dispel the
gloom and they point the way ahead
to a better future. Fire insurance
companies are advertising to reduce
the number of fires, and life insur-

ance companies are advertising to
make people live longer.

Advertising is reaching literally
from the cradle to the grave, for the
same publication carries the mes-
sage of the man who makes nursing
bottles to the man who makes mis-
cellaneous. Advertising makes people
appreciate the service given by the
local bank even when a customer's
poor credit renders that service un-
appreciable and teaches him not to
abuse the manager and staff if a line
of credit is refused. Advertising has
been employed to speed legislation to
warn against counterfeiters of labels
on bottles, to recover stolen goods, to
fight popular fads, to meet whisper-
ing campaigns of slander, to place
men on farms, to build new highways,
to stop the spread of disease, to elect
a new government, to protect ex-
piring patent rights, to regulate the
speed of vehicles, to show people
how unfair it is to buy out of town,
to teach thrift and cleanliness and
Godliness.

KING TUT WHEAT IS A
REVIVAL OF OLD SWINDLE

Inquiries have been made at the
University regarding King Tut wheat
which is supposed to have come from
the tomb of Tutankhamen at Luxor,
Egypt. It might be frankly stated
that this is pure "bunk." There is not
the slightest possibility of such an
ancient wheat germinating today. This
King Tut wheat is nothing more than
a revival of the old swindle game of
selling undesirable wheat, together
with much misstatement, to unsus-
pecting farmers. The wheat is
usually known as Egyptian, and be-
longed to the class Triticum turgidum.
In the seed trade it is some-
times known as Alaska, Miracle,
Seven-Headed, Egyptian Wonder,
and now as King Tut. Every few
years some unscrupulous individ-
uals seem to revive the old variety
under a new name and sell it at ex-
orbitant prices.

Egyptian wheat is easily distin-
guished by its branched head. This
character gives it the appearance of
being very productive, but as a mat-
ter of fact it does not yield as well
as the commonly grown varieties of
good bread wheats. It is of very
poor milling and baking quality; for
bread-making it is very undesirable.

If Egyptian wheat or any other
wheats of the same type were grown
to any extent in Alberta it would
have a most depressing effect on both
the local and foreign markets. Our
export grain containing mixtures of
such varieties would have lower
milling and baking qualities, as well
as commercial grade. High and un-
iform in Canadian export grain is now
more necessary than ever, since the
struggle in the world grain markets
grows more severe every year.—
University Bulletin.

Sap: "Clever? Oh, very! Why,
Doris has brains enough for two."

Keen: "Just the girl you ought to
marry!"

Stranger: Ah! Mrs. Mudge, one-half
of the world is ignorant as to how
the other half lives."

"Not in this village, miss."

WHO'S WHO

Hon. O. P. Goucher

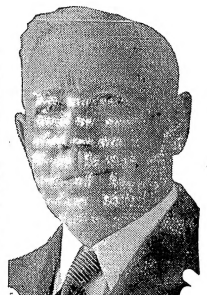

NOVA SCOTIA has as its Minis-
ter of Natural Resources Hon.
O. P. Goucher, who has been closely
identified with agricultural work for
many years. He is also chairman of
the Nova Scotia Committee of the
World's Grain Exhibition and Con-
ference.

Born in Annapolis County in 1865,
Mr. Goucher graduated from the
public and high schools and finished
off his education at the Truro Nor-
mal School. For four years he was
principal of the Lawrencetown
High School and for another six
years acted in similar capacity at
the Middleton High School.

Entering commercial life in 1902
he became associated with the
Manufacturers' Life organization and in 1925 assumed the general man-
agement of the company for the Province of Nova Scotia.

Mr. Goucher was elected to the Nova Scotia Legislature in 1925, and
was called upon to enter the Government in 1930, taking the portfolio
of natural resources.

For a number of years he was closely associated with the fruit
growing industry of his Province, owning and supervising an apple
orchard of considerable size in the heart of the Annapolis Valley.

A FARMER'S PRAYER

A copy of a Wisconsin newspaper
has been forwarded by a Times read-
er which reports the annual meeting
of a co-operative creamery company
in that state. One of the speakers
delivered an address on the advan-
tages of being a farmer during the
present business depression. In its
course he read the following prayer
of thankfulness, prepared by a farm-
er in Illinois:

"O Lord, I am thankful I am not
the owner of real estate. I am
thankful that I own no stocks or
bonds bought at peak prices. I am
grateful for guidance that kept me
out of the speculative grain markets.
I am pleased that I am not a retail
merchant with a bulging ledger of un-
paid bills. I thank Thee, O Lord that
I am not a laborer without a job or
in danger of losing it. I surely am
thankful that I am not a coal oper-
ator nor a steel manufacturer nor a
railroad official hunting for trade
where there is no trade."

"I am only a poor farmer with 160
acres of Illinois gumbo, all paid for.
Once it was worth more, but I did
not sell and I thank Thee I did not
buy more at the price."

"Give me, O Lord, my pigs and my
chickens and cows, my health and my
strength and my faith. I am not mak-
ing money but I am not losing so
much that I face disaster and hun-
ger. I live on three bounteous meals
a day. These Thous hast provided,
whatever happens."

"May the day of upturn and
better things come for all of us. I am
grateful to Thee for the small
blessings and regular blessings that
fall upon me and mine and my coun-
try."

CONDITIONS BAD IN 1864

The following clipping is from the
Mitchell Advocate, published in
Perth County, Ont., November, 1864:
"We regret to see so many balliffs
sales as there are this year. The
other day some unfortunate from
Logan had all his stock sold at one
of those sales, which took place in
front of the Commercial Hotel, Mit-
chell. Notwithstanding that there were
about 80 people present, horses worth
from \$30 to \$50 sold at from \$3 to
\$21, and good milking cows at from
\$2.50 to \$9. We heard of another
sale in Logan on Wednesday last,
where two spring calves were sold
for 26 cents."

Winnipeg, March 28.—One death
from shock and 13 persons injured
was the toll of a Canadian Pacific
Railway passenger train derailment,
16 miles west of Swift Current, Sask.,
Thursday night last week.

Thumb Sketches
By C. L.

Compensation

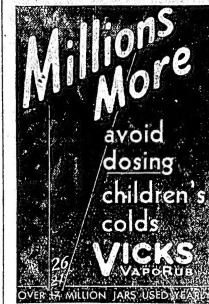

ONCE upon a time—to begin a
story in the old fashioned way
—oh, it was all of fifty years ago,
a brown faced, barefooted Ontario
lad came straight home to his
mother from the "little red school-
house" that stood on the corner of
Barrie's hundred-acre farm.

No? You don't see anything
extraordinary about that? No?
But as a boy, you've never seen
the flowers along an Ontario road
spelled it, too. Compensashun went straight home from school to tell
his mother that old Beecher, the school teacher, had promoted him to the
third book. Beecher—not his real name, of course, but you'll understand
that—used to point out certain words in the old third reader and our
task was to learn their meanings. Compensashun, on one occasion,
climbed the slippery elm pole at the back of the school yard and balanced
himself on the top. "Compensashun," says Billy Lane, "an' let me up."

"Ain't he balancing his self?" says Billy, "an' didn't Beecher
say that was the meanin' of compensashun?"

Compensashun is typical. Certainly he has experienced some hard
knocks since then or he wouldn't be where he is. He doesn't enjoy that
name any more either. He has learned, however, that there is more
truth than fiction in the known aphorism, "Nuthin' for nuthin' an' nightry
little for a dollar." Nothing is actually free. Sorrow is the price to
be paid for joy, labour for success, study and application for efficiency,
the inconvenience and expense of getting acquainted and of learning to
understand for peace, harmony and good-will. Nothing is free and it
applies to nations as well as to individuals.

The World's Grain Exhibition and Conference to be held at Regina
in 1932 is a national undertaking. It merits from all Canadians their
labour, their study, and their effort to become acquainted with and to
understand the people of other lands, their methods, their successes and
their failures. The results in the joy of accomplishment, in the success
of national business, in the increased efficiency of agriculture, in the pro-
motion of peace and good-will among the world's people, will be com-
pensation in exact proportion to the Canadian investment of these things
in it.

SOME PHASES OF
BRITISH ECONOMICS

The unemployment figures for
Great Britain for the week ending
March 9 were 2,691,791, an increase
of more than 50,000 over the pre-
vious week. Mr. Snowden stated
recently in the House of Commons
that the government felt it necessary
that the national financial
position should be placed before the
country. He was compelled to find,
he said, either by taxation or by
borrowing £100,000,000 a year for
the unemployed, which was wholly
an additional charge as compared
with normal times, and which com-
pletely upset his budget.

Approximately one-quarter of the
employable population of the coun-
try is being supported in idleness at
a higher standard of life than is
possible for those at work in most
other countries. The iron, steel,
coal and ship-building industries
share with the textiles, wool and
cotton, the dubious distinction of
having the largest proportion of
unemployment in the country. All
these industries are primarily ex-
port trades and must sell their pro-
ducts in the markets of the world
and compete against the product of
cheap labor and lax working con-
ditions. There are many thousands
of men of these industries who are
out of work today and have little
prospect of ever getting back their
jobs again. It is a pathetic sight to
see such places as Bridgeton Cross,
Glasgow, crowded with unemployed
men day after day. They have
nothing to do after signing on at
the Labor bureau each morning, and
about 2:30 in any afternoon the
square is packed with men waiting
for the racing results in the after-
noon papers. Some of them have
been unemployed for years.

Unemployment insurance com-
menced in Britain in 1911 and by

1914 the fund had a surplus of
£2,185,000. With the huge unem-
ployment of 1921 "extended benefit"
was introduced for those who had
exhausted the regular insurance
rights: It was given the fund at
the same rates. Relief was thus
granted on insurance had proceeded
to swallow it up. That is the most
frenching criticism of the scheme
as it operates today—the hopeless
confusion of insurance and relief.
Another criticism is the lack of re-
lation between employers' payments
and benefits. They have no finan-
cial incentive to stabilize employ-
ment. The eight most stable in-
dustries in 1929 with 1,305,000 work-
ers drew out only the same amount
of money as benefit as "dock, har-
bor, river and canal service" alone
with 171,000 workers, though they
paid in ten times as much. It is
easier to pay relief to coal miners
than to shift them from the indus-
try. Yet both labor exchanges and
insurance have proved themselves
indispensable, and we do not hear
of Britain wanting to go back to
the old haphazard provision for
men out of work. Unquestionably
the present scheme has enabled
Britain's workers to live through an
unparalleled depression without a
fatal lowering of their living stan-
dards and has quite conceivably
prevented a revolution. The com-
mon charge is that it has enabled men
to live in idleness when they could
get work, no less an authority than
Sir William Beveridge flatly dis-
misses as "idle and irresponsible
talk."

The situation, though grave, is far
from desperate, and one of the
brightest spots in the enterprise be-
lieving shown by the manufacturers in
the old land. The British indus-
tries fair held in February was the
largest trade exhibition ever held in
the world—exceeding for the first
time the world-famous Leipzig fair.
Heavy industrial exhibits were
shown in Birmingham; lighter in-
dustries in Olympia, London; arti-
ficial silk goods in the Albert Hall,
London; cotton goods in the White
City, London. There were more
than 500,000 yards of cotton fabrics
shown in the exhibits alone. The
number of buyers was larger than
ever before, there being representa-
tives present from more than sixty
countries, including a party of
thirty-six from Russia, and one of
twenty-nine from Yugoslavia. Brit-
ish industry is very much alive to-
day.

Mr. J. Maynard Keynes, the Brit-
ish economist, has this to say in
"The Listener":
"Let me first of all remind you
of the obvious. The great mass of
the population is living much better
than it ever lived before. After
paying wages which are far higher
than in France, Germany, or Italy,
after supporting a quarter of our
population in idleness, after adding
to the country's equipment of houses
and roads and electrical plant on a
substantial scale, we still have a
surplus available to be lent to
foreign countries, which in 1929 was
greater than the surplus for such
purposes of any other country in
the world, even of the United States."

"As compared with so recent a
date as 1924, our productive output
per head has probably increased by
10 per cent. That is to say, we can
produce the same amount of wealth
with 10 per cent fewer men em-
ployed. As compared with pre-war
the increase in output per head is
probably as much as 20 per cent."

Apart from changes in the value of
money, the nation's income—even
as recently as 1929 with a great mass
of unemployment (it cannot, of
course, be quite so good today)—was
probably increasing by as much as
100 million pounds a year; and this
has been going on year by year for
a good many years."

Anyways, brownfaced, barefooted
Compensashun is a member of parliament now.
"Compensashun?" Oh, yes, I neglected to say that this was the name
he went by way back in those good old days. That's the way Billy Lane
spelled it, too. Compensashun went straight home from school to tell
his mother that old Beecher, the school teacher, had promoted him to the

Health Service

OF THE
Canadian Medical Association

GRANT FLEMING, M.D., ASSOCIATE SECRETARY

WHOOPIING COUGH

Whooping cough is really a serious condition. It is one of the communicable diseases, and it is passed from the patient to others in the secretions of the nose and throat.

Whooping cough, in the beginning, seems like a slight cold. There is running at the nose and a hoarseness or cough. After a week, the cough gets worse. The child coughs many times in succession, each fit of coughing being followed by a deep, sharp intake of air—the whoop.

The attacks may be violent and prolonged. The child vomits frequently after an attack of coughing. The inability to retain food, the loss of sleep and the consequent strain of ten result in the child's losing weight and becoming quite weak.

Whooping cough is serious because it weakens the victim to such an extent that other diseases, particularly pneumonia and tuberculosis, find their chance to attack, which they do, often with fatal results.

There would be considerably fewer

or sad results of whooping cough if people generally understood that it is a serious disease and that it should be treated as such. Very often children suffering from whooping cough do not receive the care they need and, as a result, they are much more likely to develop pneumonia or some other serious and frequently fatal disease.

A child suffering from whooping cough needs plenty of fresh air. Unless the weather is bad or he has a fever or some other condition which would keep him in bed, he should be out of doors every day. His room should be well aired night and day, by keeping windows and doors open sufficiently to provide for a gentle current of air through the room at all times.

If he vomits frequently, it may be found that smaller meals given more often will help.

Other persons must be protected, and so all secretions from nose and throat should be collected on old cloths or paper and burned. The dishes used should be boiled and kept separately. The patient must be kept from coming into contact with others, particularly children.

Pertussis or whooping cough vaccine is used in the prevention and treatment of whooping cough. Its value has not as yet been definitely proved. Some believe that the results are encouraging enough to warrant its use. If your family doctor recommends its use, you should accept his advice.

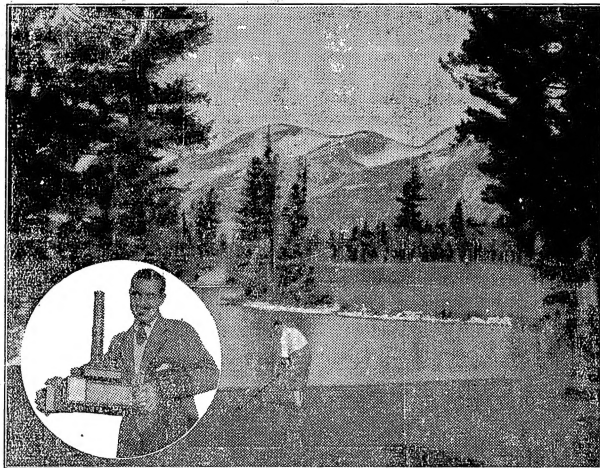

As whooping cough is particularly dangerous in the first year of life, every effort should be made to protect the babies, and parents should never take a chance of allowing their baby to come in contact with children who have whooping cough or even colds, because what seems today to be only a cold may later turn out to be whooping cough or measles.

Question, concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

KING TUT WHEAT

A recent inquiry was made at the University of Alberta as to the nature of alleged King Tut wheat. Prof. O. S. Amundt, replying to the inquiry said, among other things: "King Tut wheat is supposed to have come from the Tomb of Tutankamen at Luxor, Egypt. This is pure bunk. There is not the slightest possibility of such a thing. Wheat is a grain of wheat. The King Tut wheat is nothing more than a revival of the old swindle game of selling undesirable wheat."

Mashies in the Mighty Mountains

It is the unusual that thrills in the Rockies. For instance, who would expect a championship golf course, rated as one of the world's finest, planted like an emerald in the rough bosom of the Rockies? Jasper Park Lodge links show new aspects of the mountains at every hole. Wild life in this sanctuary is unafraid and like as not a family of bears will amble across the fairway as the golfer tees up. Inset in this scene, which shows a water hazard, is Gardiner White, Nassau, New York, holder of the Totem Pole trophy which is emblematic of the Lodge course championship.

Outline of Canada's New Agricultural Policy

An exclusive and authentic statement of the New Farm Policy shortly to be announced in Parliament by Hon. Robert Weir, Minister of Agriculture.

(By Richard Churchill)
(In McLean's Magazine)

THE NEW POLICY IN OUTLINE

1. A National Marketing Board.
2. Lower costs of production to be obtained by increased yield of wheat per acre.

3. Sowing of land to crops best suited to it.

4. Research work to discover fertilizer required for different soils—no fertilizer to be recommended unless of moderate cost and available in the particular area.

5. Immediate survey of seed grain—wheat, oats, barley—and of seed vegetables and fodder crops.

6. Creation of "bull clubs" composed of not less than three farmers, the Federal government to provide any two clubs with a first-class bull free of charge.

7. Immediate improvement of the quality of ewine; the government to buy every good sow which comes on the market, breed her to a first-class boar, and sell to any farmer at cost. The government will pay half the freight to destination.

8. Graduation of diseases among poultry. Intensive survey of Canadian flocks to eliminate non-layers.

9. Research work on best lands to reform farmers of feed balanced ration available in each area.

10. Increased efforts to eliminate parasites.

11. Transformation of experimental farms into local educational centres.

12. Co-operation with provincial governments in carrying out policies and bringing to farmers discoveries of government scientists.

To meet the challenge of falling wheat prices, disorganized markets, rural distress, comes a new agricultural policy for Canada.

It is not a policy of relief or charity. It is a policy of reconstruction intended to restore agriculture to a sound, prosperous condition. The man who will support it with all the financial and administrative power of the Dominion is a prairie farmer—Hon. Bob Weir of North Saskatchewan.

Nine months ago the wheel of fortune whirled Weir from his farm, dropped him behind a flat-top desk in the Langevin Block, administrative building, Ottawa. He came, personally, to be a breeder of thoroughbred Herefords, a successful "mixed" farmer. While Canadian farmers reeled under successive blows of economic adversity, Weir, seated in the chair of Carling, Fisher, Burrell, Crerar and Motherwell, tackled the problem of rebuilding.

A few weeks ago I stepped into his office. Weir sat in his chair, broad shoulders slightly sagged with weariness. He has worked morning, afternoon and night for six months.

"Have you completed your new policy?" was the first question. Weir replied cryptically. Policies to re-marshal the armies of agriculture could never be said to be complete. Agricultural policy must be fluid, elastic. The basis structure must be capable of supporting whatever superstructure changing conditions demand. Who could foretell world conditions of 1935; who could see even a few months beyond the present?

"But what about the basic policy?" "I have it," he replied briefly. Mr. Weir had finished his first big job. He was eager to get it out to the public; welcomed the opportunity of using MacLean's Magazine as

the medium. Hunched in his chair, he talked rapidly. It would be unfair to quote him because he spoke too rapidly for perfect recording, and often, having indicated his policy, would pause with a "You understand." But the policy he unfolded is now summarized for the first time, and the text of this article was submitted to Mr. Weir's associates, corrected and approved.

Improving Seed Grain

Control of production has no place in the new agricultural policy. A marketing board of outstanding men will be created for the purpose of giving expert advice on this question. The central pillar in the new policy is elimination of waste. Weir believes Canadian agriculture, despite world conditions might reasonably be profitable today if waste was eliminated. And yet he does not propose to "dip" upon the word "waste," to denounce the farmers with the cry "Be efficient," nor will he ever use the word "educate." In the sense that farmers are not intelligent. Canadian farmers, he believes, are among the most intelligent in the world.

Mr. Weir knows farmers have neither time nor facilities to make soil analysis and blood tests, to conduct doubtful but often precious valuable experiments. This is the work of the government, and of equal importance is the business of getting the results of government experiments, research, analysis, trial to the hands of farmers. The future will see the most intensive effort ever made in Canada to bring farmers into direct contact with government agricultural institutions to enable them to cash in on the work of scientists and agronomists.

The new policy embraces soils, cereals, pastures and grasses, livestock, poultry and feeds. Take them in the order named.

Mr. Weir believes the soil of Canada is second to none in fertility, but it is not being utilized to the greatest advantage. Production of wheat in Canada averages sixteen bushels per acre; in other countries, where farm methods are more intensive, production is as high as thirty-five bushels per acre. Why cannot the average production in Canada be raised to, say, twenty-five bushels? Mr. Weir will strain every effort to achieve an increased yield per acre, confident that in doing so he will reduce costs of production, enabling Canadian farmers the better to compete with the world.

How to do it? Mr. Weir believes this can be done by the proper preparation of the seed bed, by restricting wheat, sowing to the land best suited to it, and by the use of fertilizer. A thoroughly prepared seed bed will bring even germination. Per cent of wheat out of the ground, or three or more farmers will be able to form a club, and any two clubs, upon application to Ottawa, will receive a first-class bull, of a quality either AA or A, as far as there is an available supply. The bull will be loaned to the club, free of charge, upon condition the animal is properly stabled and fed. Every

to send samples for analysis. They will get a reply stating the crops for which their land is best suited, and the kind of fertilizer most needed. And fertilizers will not be recommended unless readily available in the particular locality and of small cost.

Even with wheat at fifty cents per bushel, the advantage of increasing the yield fifty per cent, without adding to acreage or costs of production—excepting threshing and marketing—are obvious. Even if the larger crop drove prices as low as forty cents per bushel the advantage still would be enormous.

As to cereals, Weir's policy calls for an immediate, intensive survey of seed grain. Ottawa has known for years that wheat seed of the West is of poor average quality. Thousands of farmers who believe they are growing Marquis wheat are not doing so. Canadian wheats, such as Marquis and Reward, are hybrids—the result of many crossings. These wheats have a tendency to revert to original types, to lose the very characteristics—early maturity, large yield which makes them desirable. The Dominion Government will carry out surveys of wheat fields, will tell a farmer if he needs new seed grain. Every farmer will be invited to send samples of his grain to government centralists for examination and report.

This will be done, also, with oats, barley, and every form of cereal, fodder and vegetable production.

Canadian pastures are included in the Weir policy. Farmers do not give the same thought to their pastures as to their cultivated fields, and yet pastures will respond as readily to the use of proper fertilizer, of vicia grass seed, as wheat lands. Experiments prove that pasture land, the vigor of which is not renewed, rapidly becomes exhausted. The grass grows slowly in the spring, and contains little food value. Given proper fertilization, sown to the kind of grass best suited to the soil, pastures increase their growth by twenty-five per cent or more, and are ready for grazing at least ten days earlier in the spring. This means money in the pocket of the mixed farmer. His cattle escape early winter rationing more quickly, gain strength and flesh before the heat of summer and various insects have to be fought.

But the new policy is more radical in its application to livestock. Mr. Weir proposes to raise the quality of Canadian herds and flocks—not gradually but rapidly.

Bull Clubs
As to cattle, the policy calls for a revival, upon a much broader basis, of the "bull scheme," abandoned a few years ago. Regulations have been drafted providing for the formation of "bull clubs." In future, three or more farmers will be able to form a club, and any two clubs, upon application to Ottawa, will receive a first-class bull, of a quality either AA or A, as far as there is an available supply. The bull will be loaned to the club, free of charge, upon condition the animal is properly stabled and fed. Every

SUFFERED FROM BACKACHES When Doing Her Housework

Mrs. Geo. Dennis, Leask, Sask., writes:—"I suffered, for four years, from backaches when I was doing my housework. A friend told me about Doan's Kidney Pills. I have taken five boxes and am now feeling fine again. I am of ambition to do my own work, washing, etc. The pains in my back are completely gone, and the puffiness under my eyes has disappeared. I recommend Doan's Kidney Pills to all suffering women."

Price, 50 cents a box of all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

two years bulls will be exchanged between different areas. The regulations are so generous that it is believed scores of pure-bred bulls will be needed to meet the demand and in a few years the quality of Canadian production should be measurably improved. The cash advantages of improved quality cattle are so obvious as not to require argument.

The policy in regard to hogs is equally radical. The Dominion is now beginning to purchase the best quality hogs obtainable in Canada or elsewhere. No boar of lower standard than 3X will be purchased. The animals will be stationed at the various stockyards, and government officials will watch the rule of sows to market. The best sows will be selected and bred to the best boars. The sows will then be sold to farmers at cost, and the government, in addition, will pay one-half the freight to destination. This policy dovetails into existing provincial policies. In Saskatchewan, for example, the provincial government finances purchases of sows by farmers, paying cash and collecting the money in installments. In this way it is intended to prevent the slaughter of high quality sows. Literally thousands of good sows are slaughtered every year. In a national sense, this wastage will cease. Even the farmer who needs the money will be able to sell and rebuy the sow, if necessary, on deferred payments, through provincial assistance.

Methods similar to the bull policy will be adopted to improve the quality of horses, although at the moment, is less concerned with this problem than with that of cattle and hogs.

Chicken Testing
The poultry problem differs radically from other farm problems, demands individual solution. Mr. Weir sees it as follows: Poultry policy dovetails into existing provin-

(Continued on Page 6)

Canada Must Win World Championships

World Championships in 1935 will be won by farmers who recognize that the cleanest and best quality seed with the most careful cultivation are essential to the production of exhibition grain. While it is recognized that these things should apply to the whole crop area, concentration upon a small plot in the best plan for securing an exhibit sample. If such a plot is subjected to extra preparation—with more care probably than it is possible to devote to the whole crop area—and sown to the very best seed it will not only provide good quality exhibition stock for next spring's seedling, but a winning sample for exhibition at

Neighborhood NEWS

WINFIELD

The residents of Townslike and vicinity have been looking forward expectantly to work being started on the Winfield-Hoadley road. They are wondering what action the Council of Columbia Municipality intend taking in regard to this matter.

Mr. McKenzie is building a house on his homestead.

Mr. Thrasher and Mr. Francis and sons Lester and Eugene were engaged in a hazardous undertaking one day last week. However, they soon returned to the safe haven of "Home, Sweet Home," to the more pleasant pastime of playing bridge.

In honor of Mrs. C. F. Taylor, a "tea-party" was held at the home of Mrs. E. A. Taylor last Wednesday afternoon. Among those invited were Mrs. S. E. Nelson, Mrs. D. McNeill, Mrs. G. H. Groulx, Mrs. Francis, Mrs. W. A. Brown, Mrs. D. E. Alwood, Mrs. Clemmer, Mrs. E. W. Johnson, Mrs. G. Dewar, Mrs. Shamp, Mrs. Stratton, Mrs. G. Bjur and Mrs. B. A. Stady.

Mrs. Woodbridge returned from Edmonton on Friday.

Miss Astrid Bjur took in the pie social at Pendry Sunday night.

Constable Baynes, A.P.P., of Breton, has been seen in town quite often lately.

Mrs. Francis, who has been sick with colds, etc., for quite a while, is feeling better now, we are glad to say.

Mr. and Mrs. Ayre and family, accompanied by Mrs. Taylor and son Murray, motored to Pendry Sunday afternoon.

Mr. Chas. Brinker, Mr. Willoughby and Mr. Fisher motored to Winfield Sunday from Snell's Mill.

Mr. and Mrs. John Anderson and family have moved to Townslike.

Mrs. Albert Lowe of Norbeck, returned from Rimbey hospital, where she has been for some time, ill with pneumonia.

WINFIELD WEST

Sandy Turnbull has been hopping around on one leg for a few weeks past. His injured foot is again performing its natural function, and Sandy is a biped once more. It is no joke to have one's foot jammed between a sleigh buck and a stump. And it is no joke when that foot is acting in the dead of the night and you get up in the dark and make the mistake between vaseline and mustard. Sandy did not notice his mistake until his poor foot started to burn. I wonder what he said. I notice the bluebirds are with us again so spring cannot be so far away. If we take a walk through the woods where the works of the Lord are revealed, we find new life in every shape and form.

New settlers are coming in to perform their homestead duties. These men are from all walks of life. Big wheat farmers, teachers, mechanics, etc. They will carve out a home in the heart of nature and will learn to love the beautiful scenery that surrounds them.

Talk not of the Oriental Georgians of Eastern countries. Tell us not of fairies which artists paint with gold pens on silver leaves of satin. A description of this beautiful country should be written with the golden wand of an angel, dipped in the softest rays of a sunbeam, upon the most delicate surface of a rose leaf. In these times of depression we are apt to be pessimistic, and the only solution, my brothers and sisters, is to remember that though the dark cloud of depression still hangs over us, it has a silver lining, which is an indication that the sun is shining beyond. If you have reached half way up the ladder of success and have made a misstep and have again fallen to the bottom, remember it is not a disgrace, a mistake, that is all. Start once again on the bottom rung, go one step at a time, build a solid foundation on each step and you will never fall. I am still on the bottom rung, so I haven't far to fall. The homestead is my foundation upon which I am building my future hopes. May God protect me from the big head.

You readers of The Times have not heard from me for many moons. To be frank with you, I am more at home with a manure fork in my hand than a pen. But I promise in the future to keep you a little better posted on the doings of Winfield West.

NEW SWEDEN

Mrs. A. Lilledahl spent a couple of days in Edmonton, visiting with her daughter, Elvera.

Clarence Pearson returned on Thursday from Edmonton, where he

has been a patient in a hospital for several days. He is greatly improved and, we hope, is safely on the road to recovery.

On Sunday, Mr. and Mrs. E. Johnson, Mr. and Mrs. Gust Eason of Wetaskiwin, Mr. and Mrs. I. Eason, Mr. and Mrs. Justus Anderson and Mr. and Mrs. Alvin Swanson, met at the home of Mr. and Mrs. Olson to spend a social afternoon with them in their new home.

Mr. G. Axene, who has been foreman of the painters at the Administration Building in Edmonton during the winter, returned home for the coming season.

Bernard Swanson and Harold Pearson, returned home from Pigeon Lake, where they have spent several days clearing the road to the new Bible Camp site.

Ferdinand Larson motored to Edmonton on Monday, taking C. Pearson to the hospital there.

Miss Marie Uebell, from Camrose, Norway, has been observing and practicing teaching in Cherry Grove school this week.

Mr. and Mrs. John Arnold returned on Monday from the States, where they have been sojourning through the winter.

Wonder why the roads are so good down to Art Peterson's?

BITTERN LAKE

Mrs. Albert Carlson was a Wetaskiwin visitor on Tuesday.

Jack Hether had rented a quarter section of land from J. H. Heighton.

Mr. V. B. Peterson made a business trip to Wetaskiwin on Saturday.

Mr. and Mrs. A. L. Peterson, Mr. and Mrs. N. E. Wright, visited with Mrs. C. Carlson in Camrose last Sunday.

John Pasemko was in the district on Saturday.

Mrs. D. Gouchee has been very sick with the "flu," but we are glad to report that she is up and about again feeling much better.

A surprise party was held at Ervin McNaught's last Thursday evening, when a number of friends arrived unexpectedly. The evening was spent in dancing, and a jolly time was enjoyed by all.

Mrs. Elger, Sr., has been spending the last week in Wetaskiwin with her son Gus.

R. O. Cowan has rented the farm, known as the Gerard farm, in Gwynne, and will be busy moving on soon.

News has been received from Mr. S. Devall, University Hospital, Edmonton, that his health is improving. Much to our disappointment, the Hardisty local will be taken off by the C.P.R. We will have to buy that car now.

The Easter dance will be held in the hall on April 10th.

The party held at Dali's the other night, lasted till it was time to go home and go work. Everyone was tired, but happy.

Mrs. Olson, a Normal student, is practice teacher here this week.

NEW NORWAY

Mrs. Walter T. Utman and small son are visiting her parents, Mr. and Mrs. McManus near Wetaskiwin.

The C.O.I.T. concert held at Zion Church was well attended last Friday evening considering the weather.

The concert was enjoyed by all. Mr. Andrew Cole, who has been employed by Mr. John Gozore for the past winter months, left last week for Lethbridge, where he expects to be employed this summer. His vacancy is being filled by S. MacRae of New Norway.

BORN—To Mr. and Mrs. Trussler of David, a daughter. Mrs. Trussler and infant are being looked after by Mrs. A. Trussler.

Mr. Tom Tunnell who has been working in the lumber camp north-west of Edmonton, is home recovering from an injury he received while skidding logs. Part of one of his fingers was severed from his hand which caught in a chain he was fastening about some logs, and the horse started up, taking the slack from the chain.

Mr. and Mrs. Clarence Butler and family spent the week-end with the latter's parents, Mr. and Mrs. Latimer near Camrose.

Mr. Cornell of Eaton, Ont., came last week to visit his cousins, Oliver and Garfield Holt. He expects to spend the summer in the West.

Mrs. Harold Maynard and small children of near Gwynne, spent last week with her parents, Mr. and Mrs. H. Davis.

Miss Effie Gozore of Stettler, spent last week-end with her parents, Mr. and Mrs. John Gozore.

Several members of the Ladies' Aid met with Mrs. M. McIntyre last Thursday and quilted a new wool quilt.

Mr. and Mrs. Chas. Atkinson, Sr., and Mr. and Mrs. Chas. Atkinson, Jr., are moving near Breton this week.

Mr. and Mrs. Kenneth Adams and family of near Edberg, spent the week-end with Mr. and Mrs. H. Davis.

Mr. Leo Reynolds of Camrose, a Normal student, is taking his usual training under the supervision of Miss Baird of the lower grade school at New Norway this week.

The friends of Mr. H. Davis will be glad to know he is able to be up and around after being confined to his bed the past week.

Mr. S. S. Beller spent several days

Ottawa Weekly Letter

(By W. Irvine, M.P. for Wetaskiwin)

The debate on the address to His Excellency still continues. The economic condition of the country is acting as a spur to every member, who feels that he at least must appear in debate, making a statement of the conditions and urge that something be done about it, even if he is a little hazy as to exactly what should be done. There are so many speakers on the Whips' list at the end of this week that it will be impossible to take a vote before Easter. If they all carry out their intention to take a part.

The impression which one gets from the debate, and the one which outweighs all other impressions, is that everyone appears convinced that something ought to be done to improve conditions, but that comparatively few have any coherent idea of what should be done, or how it should be done. This is not intended as a criticism of any particular party or of Parliament. It is a fact, however, and one for which no apology needs to be made, since the same thing is true of every governing body of the world at the present time.

As usual, the tendency is to blame the Government. This attitude at this particular session is ridiculous. The economic condition of Canada today is no more chargeable to the Bennett Government than to myself or any other citizen of the country. Conditions are the ripening fruits of a social system which has been maturing to a climax for generations. To blame a government, and especially to blame one which has scarcely got its feet in the stirrups of office, is not only futile but it seems to turn the attention of the people from the real trouble, which is the system itself.

I am more and more convinced that any effort by any government, which primarily has as its objective the continuation of the present system, will fail. Nothing which has ever been tried before will help the present situation, because it is different from anything ever experienced in history.

There may be a hope, in the legislation hinted at in the speech from the throne. "Aid to Agriculture" might mean a great deal and may mean nothing, but until we know what it means we shall give the Government the benefit of the doubt and say there is a "hope" that it may mean something.

We can speak more definitely of the amendment of the Opposition. It is obviously barren and hopeless. It ensures the Government for its policy at the Economic Conference, it points out that economic conditions are bad and have not been relieved by anything the Government has done, and that things are likely to get worse. That is the sum and substance of the amendment.

It is true that Mr. King and his followers during the debate have suggested that lower tariffs would help. But there are things to be said about that. The first thing to be said about that is—why did not Mr. King give us his cure during his nine years in office?

As to what might have resulted had he done so must remain a speculation. The only example of a low tariff country which the world affords is Great Britain. And what has Mr. Thomas had to say in speaking for that country at the recent Imperial Conference is not good advertising. This is what he says in the Imperial Conference report, page 26: "I therefore, Sir, on behalf of the United Kingdom Government, want

the first of this week with Mr. and Mrs. Art Newman near Gwynne.

Mr. R. E. Wilson passed away in the Camrose hospital on Monday, March 23rd. Funeral services were conducted by Rev. Fuller and Rev. Sadler on Friday afternoon at 2:30 p.m., and the remains were laid to rest in the Malmoe cemetery. Mr. Wilson is survived by a wife and four children. The sympathy of the entire community is extended to the family in their hour of bereavement.

Mr. A. V. Read made a business trip to Calgary last week.

LONE RIDGE U.F.A.

Members are reminded of the next meeting which will be held at the Brightview store on Thursday, April 9th, instead of the 7th as announced formerly, on account of the Board of Trade meeting on the 7th. We are hoping to have Mr. W. C. Dowdell present to give a talk on some interesting subjects. Matters of considerable interest will be up for discussion, and it is hoped to have a large meeting. Everybody welcome. Ladies please bring lunch.

LONE RIDGE JUNIOR U.F.A.

The regular meeting of the above was held at Lone Ridge hall on March 25th. The debate between the Juniors in a very close decision. The Y.P.s were given the verdict by a few points. Both sides debated exceptionally well.

The next meeting will be held at Lone Ridge hall on Wednesday, April 8th. Mr. Barber, superintendent of the Swine Club, will address the meeting, and anyone who is interested, or wants to join the Swine Club is invited to attend.

this morning to look at the cold facts, as recorded in our trade returns. In 1928 the volume of the world's trade was roughly twenty per cent greater than in the pre-war year 1913. In 1928 the Empire's trade as a whole had also increased by just about that amount, so that we find ourselves in this position, that, taking the British Empire as a whole, its share in the world's trade marches, as it were, equally with that of the rest of the world, but when we come to the United Kingdom's share (Great Britain alone) of that trade for the same period, 1913-1928, the United Kingdom's share of that trade is less by twenty per cent. Now, Sir, those are very remarkable figures, and they clearly indicate, whilst the Empire as a whole has shared in the general world development in that period, so far as the United Kingdom's portion is concerned we have not only not held our own, but we have very much gone back."

From this remarkable statement it will be seen that while Great Britain with her markets open to the world, lost twenty per cent in trade during the given period, the rest of the Empire and other nations of the world under protection gained twenty per cent in trade, making a difference of forty per cent which Great Britain went behind other countries. This is not intended as an argument for protection, but it is an eloquent comment on the claim that lower tariffs would be a cure. Why did not Britain do more trade since her market was free? One answer is that a country must sell as well as buy in order to have trade. She could not sell because all other countries kept her goods out and sold to Britain only the surplus of their own products.

The most hopeful feature of Parliament so far this session has been the number of speakers who have criticized the banks and who have advocated a departure from the gold basis and a control of credit in the public interest. Several Conservative members have done so. One Liberal, the Hon. Ian McKenzie, made a strong reference to credit, and all the speakers from the other groups who have spoken have advocated credit reform as imperative.

COMMUNICATION

[We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.]

To the Editor, The Wetaskiwin Times:

Dear Sir,

Will you kindly publish the following reply to "Ratepayer," whose letter you published in the last issue of your paper.

In reply to your letter in last week's issue of The Times, may I suggest, that before you try to create trouble about the borrowing powers of the Council, you refer once again to last year's financial statement which was forwarded to every ratepayer.

For the benefit of those of our ratepayers who may be worried by your letter, it is pointed out, that in 1930 your Council found it necessary to

borrow \$40,000.00 to meet the current expenditures, the total interest paid on this borrowing was \$1419.74.

When the estimates for 1931 were discussed at the annual meeting, it was pointed out that it required an expenditure of \$361.87 to raise the taxes one mill, on the new assessment. Further, in the estimate submitted at that meeting, due allowance had been made for interest charges on borrowings and notwithstanding it was hoped that the 1931 mill rate when set would show a reduction in taxes to the extent of \$12,000.00. Nothing so far has come to the attention of your Council to change this opinion.

When it is remembered that in the present Council, four of the Councillors are among the largest taxpayers in the District and the other two among the average taxpayers, that all the Councillors have the same difficulty in paying their taxes, in common with any other taxpayer, one can only read with wonder and marvel at the foolishness of the writer of the letter that appeared last week, especially when one remembers that he could have had all the information that he required, by calling at the Municipal Office and asking for it.

Yours faithfully,
RICHARD BALLHORN,
Reeve, M.D., No. 458.

SPORT

ATHLETIC COMMISSION
FOR ALBERTA IN 1932

Establishment of a provincial Athletic Commission in 1932 is a probability, according to Premier J. E. Brownlee.

With this end in view, the Premier in the last moments of the legislative session that prorogued on Saturday night, introduced such a bill, but in no doing stated that he would not press it this year, but merely wished to bring it before the public for discussion and probable action next year.

All interested persons and organizations will be given the opportunity of making any representations desired to the government.

As drafted the bill states that the commission would consist of five members and would be a corporate body, the object of which would be "to assist, promote and encourage amateur sport and recreation in schools, community centres and through associations of amateur sportsmen."

The majority of members will form a quorum. Members of the commission will hold office during pleasure, and upon a vacancy occurring owing to death, resignation or removal from office of a member, the Lieutenant-Governor in Council will appoint a successor.

The commissioners will serve without remuneration but will be entitled to receive travelling expenses and actual disbursements in transacting the business of the commission.

The commission will investigate charges and other matters connected with sport.—Bulletin.

GRADETTES ARE CHAMPIONS
FOR THIRD SEASON

Calgary, March 30.—Defeating Calgary Wittichens, 33 to 22, here Saturday night, Bill Tait's Edmonton Gradenettes captured the provincial ladies intermediate basketball championship for the third straight season.

The "Baby Grads" won the first game on their own floor 57 to 22, which gave them an edge of 46 points on the round.

EDMONTON TEAM ELIMINATED
FROM ALLAN CUP SERIES, 4-1

Winnipeg, March 30.—Giving what their enthusiastic supporters assert was their best display of the season, the red-shirted Winnipeg coaches, led by Jack Hughes earned the right to represent the west in the Allan cup finals here Saturday when they

hung a 3-0 defeat on the Edmonton Superiors.

Let me say right here that they were worth their win and that the score might have been heavier and that it conceivably could have been closer.

Although they had a very noticeable margin in speed and were the more aggressive team all the way through, the victory was no easy one for the Pags. They uncorked a grand burst of speed right from the start, and they were getting in fairly close on Don Stuart's goal after the first period, but it was not until the third period that the hopes of Edmonton supporters vanished into thin air.

Going into the last session with a one goal lead secured on a smart play by Wise and Lindquist about thirteen minutes from the opening zone, the result appeared to be very much in doubt, but it did not remain that way very long.

WEEKLY STOCK
MARKET REPORT

The following is a weekly report from the Edmonton Stock Yards, prepared by a Times representative, for the week ending March 31st:

Receipts: Cattle, 961; calves, 188; hogs, 1731; sheep, 117.

So far this week the cattle market has been dull and trading none too brisk. Buyers are inclined to be bearish in their attitude and sales indicate that prices are 25c and in spots 50c lower on practically all classes of cattle but especially the plainer kinds.

Bulk of the fed calves quoted at \$5.00 to \$6.00. Good to choice butcher steers and heifers quoted at \$4.50 to \$5.00, common to mediums \$3.50 to \$4.25. Good to choice butcher cows \$3.25 to \$3.75, common to mediums \$2.50 to \$3.00. Canners and cutters \$1.50 to \$2.50. Bulls \$2.00 to \$2.50.

Stockier cattle, excepting choice ones, are hard to move at dragsy to weak prices. Bulk of the stockier steers and heifers \$3.75 to \$4.00, cuts at \$3.00 to \$3.50.

Calf market remains fully steady and unchanged. Good to choice light vealers selling at \$8.00 to \$9.00, common to mediums \$5.00 to \$7.00.

The hog market is somewhat unsettled. So far this week receipts have been very slight, with hogs selling at \$6.25 fed and watered, and select bringing a 50c premium and butchers being discounted 50c. Cuts on the offgrade remain unchanged and as follows: Heavies \$1.00, extra heavies \$1.50, No. 1 sows \$1.50, No. 2 sows \$2.00, roughs \$3.00.

There is a fair demand for lambs and prices are showing a fairly firm tone. Bulk of the offerings of lambs selling at \$6.50 to \$7.00, choice would bring a little more, yearlings at \$5.00 to \$5.75 and ewes at \$3.50 to \$4.50.

DISASTROUS FIRE NEAR
RIMBEY WHEN HOME BURNED

A fire, which 'is thought to have started from a defective chimney, completely destroyed the fine home of Mr. and Mrs. Earl V. Jackson, 2 miles west of Rimbey, early last Monday morning. Mr. Jackson was away to Wetaskiwin at the time, and Mrs. Jackson and daughter, Marcella, and Miss Bryanton, were awakened about 3:30 a.m. by the crackling of the flames and the smoke. The fire had made such headway that it was almost impossible to do anything towards saving the house, and very little of the contents could be taken out, either. Insurance amounting to \$1,500 was carried on the building, and \$800 on the contents, but the loss to them can hardly be reckoned in dollars and cents.—Rimbey Record.

REDUCE FREIGHT RATES
ON FEEDER CATTLE

With the object of practical benefit to the cattle industry throughout the Prairie Provinces, the Hon. Robert Weir, Federal Minister of Agriculture, has concluded an arrangement with the Canadian National Railway and the Canadian Pacific Railway, under the terms of which the movement of feeder cattle from producer to feeder within the Prairie Provinces, on a basis of one-half the normal freight rate, is authorized.

CANADA ABLE TO FACE
TIMES OF STRESS, CRISIS

The Alberta branch of the Canadian Manufacturers' Association completed its annual meeting with a banquet in the Palliser Hotel on Friday evening, at which Howard Stutchbury, Alberta trade commissioner, Mayor Davison of Calgary, and other prominent Albertans were speakers.

L. W. Brockington, K.C., proposed the toast to Canada and gave the principal address of the evening. It was his belief that the stage of adversity through which the country was now passing was the finest thing to stiffen the fibres of a nation and could be well met by such a courageous and self-reliant people. There were two kinds of Canadians, he said, those who preferred to wave the flag and those who were prepared to make sacrifices for Canada's future. He hoped to see Canada a home for the oppressed for every land, enriched by the beauty and strength and the higher qualities of so-called foreign nations.

The outstanding qualities of Canada, he said, were freedom under the law, a passion for education, courage, charity and tolerance.

The toast was responded to by Hon. W. H. Cushing, who expressed the belief that Canada was the most favored nation of the world. He believed that industry was moving west and the most valuable asset in Western Canada was the courage of its people.

Howard Stutchbury, replying to the toast to the province, reminded his hearers that, as manufacturers, they had a duty toward the resources of the province. Unemployment was the responsibility of the individual and not of the government. The employment of Canadians and the purchase of Canadian goods was a real factor in the solution of unemployment.

KING OF SIAM WILL HAVE STAFF
OF FIFTY ON CANADIAN TRIP

Ottawa, March 24.—It will be interesting to the people of Canada to know that there probably was never any country which adopted as wholeheartedly the principles of the Boy Scouts, as did Siam, whose King and Queen will pay a visit to Canada on April 17th. They will arrive on board the Empress of Japan and will return on August 22nd.

The King is coming to this continent.

M.D. OF MONTGOMERY NO. 458

NOTICE

Public notice is hereby given that there has been introduced in the Council of the Municipal District of Montgomery No. 458 a by-law, of which the following is a short synopsis:

"That a grant of one thousand dollars, (\$1,000.00) be given towards the maintenance of the Public Hospital at Wetaskiwin, and that the Reeve and Treasurer be hereby authorized to issue a cheque for the said amount, on behalf of the Municipality."

A copy of the same may be seen in each of the following places: The Municipal Office; Post Office, Wetaskiwin; Post Office, Gwynne; Post Office, Blithem Lake; Post Office, Maimo; Post Office, Millet; Peace Hill School, Crooked Lake School, Harvest Home School, Haultain School, Rose River School, Star School, Angus Ridge School, Bear's Hill School, Weller School.

Further, that unless within thirty days from the publication of this notice, at least fifteen per cent of the proprietary electors of the Municipal District petition the Council to submit such by-law to the vote of the Proprietary Electors of the Municipal District, the Council will proceed to pass the same.

GODFREY BAKER, Secretary.

not to receive eye treatment and a private train will carry the Royal party from Vancouver to New York. The cost of the accommodation for the King and Queen, and their suite of fifty persons on board boat is estimated at \$25,000. His Royal Highness, Prince Svasit, uncle of the King and father of the Queen, will accompany them.

King Prajadhikop ascended the throne in 1926 and has been responsible for placing Siam in an enviable position. At the time of his accession there had been a deficit for four years, but in the following two, without imposing any taxation on the people, he wiped out the indebtedness. This was accomplished by introducing economy in administration and drastic cuts in the expenses of the Royal Household.

Siam is situated between British Burma and French Indo-China and has a population of about 10,000,000, two-thirds Siamese. The principal city, Bangkok, has 600,000 residents, 2,000 of whom are European. Agriculture and fishing are the principal occupations while rice and teak are the main exports. Siam boasts a British financial adviser and a corps of Danish officers in charge of provincial police.

When Siam placed itself on the side of the Allies in the Great War its contribution to fighting equipment was 500 trained aviators and a full equipment of airplanes for service in the field. English has been adopted as the language for scientific subjects by the people.

KILL COYOTES MUCH
PUZZLED BY HOUSE CATS

Hutchinson, Kas., March 30.—Western Kansas farmers are using house cats to rid the prairies of coyotes. W. H. Poling, secretary of the Kansas Isak Waton League, said farmers place a cat in a crate on a post high enough to keep it from harm. The cat howls in loneliness; its cries carry over the plains; coyotes gather to investigate; farmers in hiding kill the coyotes. The coyotes do not answer the cat's howls until dark and farmers focus spotlights on the prairie marauders.

C.P.R. ANNOUNCES PROGRAM
WORK INVOLVING \$11,514,000

Montreal.—Canadian Pacific annual report issued today makes following references to western construction:—To be completed this year, for the purposes of aiding in immediate relief to unemployment in Canada, the company in October last agreed with the Dominion government to undertake and prosecute certain construction works, the capital expenditure involved in which you have already approved or will be asked to approve at the annual meeting in May."

As set forth in schedule, the works to be completed on or about December 31, 1931, at a total estimated cost of \$11,514,000, upon which amount the government agreed to pay to the company out of the moneys provided by the Unemployment Relief Act 1930, interest at the rate of five per cent a year for a period of 18 months.

The schedule of the work and expenditure in Alberta is as follows:

Construction of branch lines in Western Canada previously authorized by the shareholders was proceeded with, 227.1 miles being graded, 237.4 miles of track laid and 360.4 miles ballasted on these new lines. This construction has followed the lines of the extensive programme outlined in the annual reports of the last two years.

PLAN TO USE ALBERTA GAS

Edmonton, March 30.—A \$100,000,000 scheme for utilization of Turner Valley gas for development of huge electric power resources in Southern Alberta is being considered by a British syndicate, according to announcements here.

R. Crowe-Swords, Vancouver, representing Hercules Consolidated Mining, Smelting and Power Corporation, of London, England, Winnipeg and Vancouver, met Premier J. E. Brownlee and Hon. R. G. Reid, minister of lands, here Saturday. The representative was given assurance

that subject to provision for possible government control of power developments in the future, there would be no objection to the company proceeding with the proposed plan.

CAPTURES SILVER FOX

Ryley, March 20.—A beautiful silver fox was captured on the east side of Beaver Lake by Sam Alex of Ryley. Mr. Alex was out on horseback with his hounds in search of coyotes when the dogs sighted the fox. In an attempt to escape, the

animal came close to the horse, when Mr. Alex jumped from the saddle practically on top of it. This is the only silver fox caught in this district.

"More Important . . .
are the Family Councils"

"More important than all the deliberations of the industry are the family councils on the performance of cars, the atmosphere of service stations and the courtesy of salesmen. Millions of daughters, mothers, sons and fathers are writing the future of the automotive business around the fireside—with no one there to plead the case of the manufacturer, car or dealer. And the verdicts are final." Motor Magazine.

The verdict, with relation to cars priced between \$1290 and \$2900, is clear-cut and conclusive: . . . More than fifty out of every one hundred buyers of eights in this field choose the Straight Eight by McLaughlin-Buick, while the remainder divide their purchases among 14 other makes. And eighty-eight per cent. of McLaughlin-Buick owners—almost nine out of ten—return to buy McLaughlin-Buicks again and again.

Owing to their popularity the present models of 1931 McLaughlin-Buick Straight Eights will be continued throughout the coming summer and fall.

The Graven Image

"By the way, Ruth, who do you suppose is in our midst now, as the Prairie Centre should would put it? Nobody but your old flame, Art Carnahan. Aren't you thrilled pink? Not married yet, either. I always did wonder why you two broke off and Art went West and you married Charlie. Oh, well, such is life, as they say. Tempus fugit."

Ruth's brown eyes took on a dreamy look as she folded the letter. She had been married ten years, she had two children. Charlie was a dear, and people called her lucky. But no one but herself knew of the secret hidden in her heart of hearts. From her husband and from her world she had concealed the bitter truth that she had married one man while loving another, and that other man who had won her love had then vanished, without a word of explanation.

A slow flush rose in her cheeks. After ten years it hurt to recall that she had been scorned. He had seemed to care for her, too. There woman looks. But—he had left, was a look in his eyes—well, a town without a word of farewell simply vanished.

Of course, he was older—35—while she had been 20. It was all inexplicable. The only solution Ruth had ever come to was that he had been too simple and young—just a small-town girl. And Art was so cosmopolitan. He had just been having a good time, but she—

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. It's gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Suffered From Heart Trouble Became Weak and Run Down

"For a long period I suffered from heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. One day I met a friend and told her of my trouble. She said she had heart trouble for two years, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes, and after taking them I was again feeling fine, and always recommend H. and N. Pills to anyone complaining of heart trouble." Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

them cranberries?" she spluttered, addressing all that was visible of the clerk—a pair of legs clad in striped trousers. "And see that you don't put in no rotten ones."

But that was at the tableau as a party figure emerged.

"That was some drive, I'll tell the world," he gasped. "Coupla pounds, did you say, Miss Klopff?" Ruth stood frozen to the spot in horror. For in that bloated figure, that fair face with its lines of dissipation, she caught a faint, fleeting resemblance to Art Carnahan. The man before her was stout and florid and middle aged! What had the years done to him?

She turned away blindly and fled. In that illuminating moment the scales had fallen from her eyes. She had been cherishing a mirage—an illusion of youth. He had not even remembered her, while she—her cheeks burned—had never removed his image from her heart—a clay image.

She rushed up to Ethel, who stood leisurely waiting.

"I'm leaving at once," she cried. "Today."

"Don't be a goose," demurred Ethel. "You haven't had your visit out."

"But, Charlie—the babies." There were tears in her eyes. It came to her suddenly that a prince Charlie was what a home she had left. She felt an irrepressible longing for the touch of her husband's arms about her. "I—er—so many things could happen. I might get run over by an automobile."

"You simple-minded thing, you," laughed Ethel. "What's the matter? Did you get a shock or something? You look as if you had seen a ghost."

"I did," said Ruth, with an enigmatical smile. "But it's laid for ever."

Gas in Stomach Hurts the Heart

Don't suffer from dangerous gas pressing around your heart, from sourness, bloating or pain of acid indigestion. Stop worrying. Your stomach simply needs an alkaline. For safe, speedy, certain relief take a little Bisulphate Magnesia—powder or tablets. It quickly breaks up the gas, neutralizes the acid, stops the pain and keeps the stomach sweet and strong and digestion perfect. It is doing this every day for thousands. It must do the same for you or money refunded by reliable druggists the world over.

OUTLINE OF CANADA'S

(Continued from Page 3)

Flocks in Canada are not efficient in the production of eggs, because some hens in the average farm yard are not layers. Many farmers who have not made poultry a specialty and who have looked upon their flocks as a sideline, are not aware that non-layers can be weeded out, but a trained poultryman can pick up a hen, look at it, feel the bone contour, and tell if it is a layer. The Federal Department, in co-operation with the provinces, will carry on continuous inspections. This information will be given farmers free of charge. They will be able to kill the non-producers, keep the profitable hens.

But the real problem in poultry is to stamp out poulorum, a disease which slays twenty per cent of all chickens. Poulorum is a blood disease, transmitted from the hen to the egg—to the chick. The disease can be detected by a simple blood test. Every experimental farm will be equipped to make this test, and farmers will be taught how to extract a small amount of blood from their hens without injuring them. The blood will be placed on a little slide, the slide mailed to the nearest laboratory, and the test made. Farmers, by raising chickens from disease-free hens, will quickly stamp out poulorum. Where this has been done the mortality of the disease has been reduced from twenty to five per cent. Mr. Weir, by government regulation, will prevent baby chicks of inferior quality, or with diseases in flocks, from entering Canada.

Another vital problem is the feeding of livestock. Little scientific work has been done in Canada on feeds, but experiments already are under way. Mr. Weir intends, as far as possible, to inform every farmer of the kinds of feeds which bring best results. Ration tables based on feeds raised in particular districts will be worked out, explained in simple language, and made available to the farmers. In the past the feed problem has either been ignored or allowed to rest with United States livestock experts—many feed tables recommended across the line call for large quantities of corn. Hence, the annual importation of \$3,000,000 of corn into Canada. Mr. Weir believes Canadian

farms can produce the best of feeds if the problem is studied.

War on Parasites

Finally, Mr. Weir will launch a nation-wide campaign against parasites. The parasite, whether it attacks crops, animals or poultry, is an enormous drain and expense to agriculture. The parasite cuts down the yield and quality of cereals, tubers and grasses. The parasite, where it does not kill livestock and poultry, siphons much of the valuable food provided by the farmer. No expense will be spared in the battle to free Canadian farms from these scourges, and as rapidly as government scientists discover means of escape the information will be passed into the hands of farmers and demonstrations will be made.

This is the new policy for agriculture as it now stands. Weir does not regard this policy as fixed, unchangeable. He will modify his policy as need arises and facts warrant. But these are the broad principles upon which the activities of the Dominion Department of Agriculture will proceed this year.

The success of the policy depends largely upon Mr. Weir's ability to reach the farmers, to enlist their co-operation. Believing they are ready and eager to do their part, he is now concentrating upon a re-organization of government machinery. The provinces have agreed to place their agricultural organizations at his disposal. In addition, he will send the experts in his department into rural areas to meet farmers, discuss their problems, help solve them.

Experimental farms, scattered across the Dominion, will become centres from which information will be broadcast. Each farm will concentrate upon the particular problem in its area, will seek the attention of farmers. Farm officials will become advisers in their districts.

Almost certainly, Mr. Weir will erect assembly halls at each experimental farm, and free lectures on local problems will be given each year. Farm officials will be the lecturers, and the provinces will be invited to pay part of the expenses of farmers who attend.

A FAMILY DOCTOR'S LAXATIVE IS BEST

Your health is too important! You cannot afford to experiment with your delicate bowels when coated tongue, bad breath, headache, gas, nausea, feverishness, lack of appetite, no energy, etc., warn of constipation. This applies not only to grown people, but more particularly to children. That's why a family doctor's laxative is always the safe choice.

Dr. Caldwell's Syrup Pepsin is prepared today under strict laboratory supervision from fresh laxative herbs and other pure ingredients, and exactly according to Dr. Caldwell's original prescription.

Today, millions of families rely on Dr. Caldwell's judgment in the selection of their laxative. For Dr. Caldwell's Syrup Pepsin, in bottles ready for use, sold in all drugstores, is now the largest selling laxative in the world!

The purpose of it all is to increase farm efficiency, eliminate waste, make agriculture profitable. Under such a policy, even without an increase in acreage or farm population, production inevitably will increase. Weir, like the rest of his cabinet colleagues, believes the home market is the most valuable to the farmer, and should be protected for farmers' products. But his policy envisages a time when Canadian production will overflow the home market, not only in wheat, cheese and cattle, but in all branches. When that time comes, he insists that Canadian products must be able to compete successfully with those of other countries, both as to quality and cost.

FARMERS MAY BUY STOCK ON CREDIT FROM GOVERNMENT

Definite action will be taken by the government this year to encourage and develop the livestock industry. Under the terms of a bill introduced in the legislature by Hon. George Hoadley, minister of agriculture and health, authority is given for the creation of an Alberta livestock development board.

In its efforts to encourage stock-raising, the board would be empowered to purchase cattle, sheep or hogs and sell these to farmers on credit. Purchasers from the board would be required to make a down payment equal to at least 25 per cent of the selling price, and to pay interest at seven per cent on the unpaid balance.

Stock would be sold at cost, plus \$2.50 for each head of cattle; \$1 for each brood sow, and fifty cents for each head of sheep.

No farmer would be allowed to purchase on credit stock of a total value exceeding \$500.

One of the principal objects of the act, it is understood, is to prevent the slaughter in such times of depression as the present, of high-grade breeding stock.

ASPIRIN

BEWARE OF IMITATIONS

LOOK for the name Bayer and the word genuine on the package as pictured above when you buy Aspirin. Then you'll know that you are getting the genuine Bayer product that thousands of physicians prescribe.

Bayer Aspirin is SAFE, as millions of users have proved. It does not depress the heart, and no harmful after-effects follow its use.

Bayer Aspirin is the universal antidote for pains of all kinds. Headaches, Neuritis, Cold, Neuralgia, Sore Throat, Lumbago, Rheumatism, Toothache. Genuine Bayer Aspirin is sold at all druggists in boxes of 12 and in bottles of 24 and 100. Aspirin is the trade-mark of Bayer manufacture of monoacetic acid ester of salicylic acid.

Miss June Simpson spent the week-end the guest of Misses Peggy and Ruth Harkness.

Mr. Petzold of Cadomin, Alta., was a visitor at the home of Mr. and Mrs. Fred Easterbrook on Monday last.

The Arlington Hotel are busy with their spring renovations, which include a new floor to the large sitting room.

Mrs. Ed. Furlong, with Elizabeth and Mike, returned to Millet after spending two months at Beatrice, Nebraska.

Mr. Thorne is setting a good example by house cleaning early. Have you been in his store since he started painting?

Mr. and Mrs. J. H. Chapman and Mr. and Mrs. E. Flood, Edmonton, spent Sunday afternoon with Dr. and Mrs. Simpson.

Mr. and Mrs. J. H. Gillies are leaving on Thursday for Edmonton, where they will spend the Easter holidays with the latter's parents. While in the city Mr. Gillies will attend the convention of the Alberta Educational Association.

LONDON RESTAURANT OWNER
WINS \$17,720 AT ANTREE

London, March 27.—Emilio Scala, London cafe owner, was raised to sudden riches Friday when Grakle won the Grand National steeplechase at Aintree. Scala held the Irish hospital sweepstakes ticket on Grakle and won \$17,720.

C. C. Woods, 32, Buffalo, N.Y., won \$886,360 with his ticket on Gregalach, which came in second.

Wife (to husband who has turned to admire a pretty girl): "George, dear, you'd make a wonderful fireman."

"Why?"

"You've always got your eye on the hose."

MILLET HIGH SCHOOL EASTER EXAMINATIONS

School will close for the Easter holidays on Thursday, April 2nd, and will re-open Monday, April 13.

The High School pupils have been busy with term examinations during the past week. These tests are held to indicate the amount of study necessary for individual students to assure success at the annual June examinations.

In order that parents and pupils may have, in compact form, some definite information as to the amount of study required in individual cases, the following synopsis of the Easter examinations results is given:

Three numbers appear after each name. The first indicates the number of papers written; the second, the number of papers passed; the third, the average mark made on all papers by the student.

Alexandra, J.	5	5	60%
Ayers, R.	7	5	59%
Blize, D.	5	3	51%
Biondini, G.	5	5	55%
Briggs, R.	7	7	73%
Carney, L.	5	5	71%
Dean, R.	6	3	50%
Duchuk, A.	5	3	54%
Duchuk, J.	8	7	62%
Duchuk, K.	5	5	62%
Elder, S.	5	0	33%
Gray, M.	6	6	72%
Hoskins, J.	4	3	59%
Hoskins, R.	5	4	73%
Jackson, A.	5	4	72%
Jevne, M.	6	5	70%
Johnson, E.	4	3	56%
Johnson, M.	6	6	56%
Kent, A.	6	7	66%
Kerr, Gladys	7	7	66%
Kerr, Gordon	6	6	59%
Lee, G.	3	1	49%
Mary, K.	4	3	66%
Marr, W.	5	5	64%
Olesky, H.	4	3	62%
Rowley, R.	6	6	67%
Shaw, V.	6	4	50%
Smith, A.	5	5	52%
Smith, M.	6	6	62%
Smith, W.	4	4	74%
Thorn, D.	4	4	61%
Van Volkenburg, E.	6	6	72%
Von Arr, G.	6	6	86%
Von Arr, M.	3	3	75%
Wolf, A.	6	6	77%

Detailed reports of these results have been sent to parents, who are requested to examine them carefully.

The following pupils have a perfect attendance record from Christmas to Easter: L. Carney, R. Dean, A. Duchuk, J. Duchuk, K. Duchuk, A. Kent, K. Marr, R. Rowley, E. Von Volkenburg.

A reorganization meeting of the Literary Society was held January

11 Years Constipation
Glycerin Mix Ends It

"For 11 years I tried to get rid of constipation," says Chas. E. Blair. "Then at last the simple mixture, Adlerika, made me regular."

The simple mixture of glycerin, buckthorn, bark, saline, etc., (Adlerika) acts on BOTH upper and lower bowel, relieving constipation in 2 hours! Brings out poisons you never thought were in your system. Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel! Northern Drug Co., Ltd., in Millet at Allen's Drug & Book Store.

MILLET LOCAL NEWS

Mr. Charlie Moonen has finished his new house, and moved in Saturday.

Mrs. Gordon Pettigrew spent the week-end in Wetaskiwin, the guest of Mrs. Barry Earl.

Mrs. Leonard Gray celebrated her birthday on Sunday, when all her children were home for the occasion.

Mr. and Mrs. Bob Booth, who have been staying at the home of Mrs. Bob Elder since their return from Rockfort Bridge, Alta., are moving in to their own house just vacated by Chas. Moonen.

Mr. and Mrs. Taitte have moved across the track to the Sutter place. Mrs. Ed. Pogue was agreeably surprised when a few friends gathered at her home on Saturday evening in remembrance of her birthday. The evening was spent at cards and every one reports having a good time.

BORN—At Vernon, B.C., on March 21st, to Mr. and Mrs. Harold Weir, a son. Mrs. Weir was formerly Miss Annie Kerr of Millet.

15 KNOWN VICTIMS

AS SPRING STORMS
BRING U.S. MISERY

Chicago, March 30.—Spring blizzard in Rocky Mountain and Plains states Sunday had taken a known toll of 15 dead, including five children frozen in a stalled school bus near Tower, Colo., and the driver of the bus. Three were missing and believed scores were in a serious condition from frost bites and exposure.

Storm struck Wyoming, Colorado, South Dakota, Nebraska and western parts of Kansas, Oklahoma and Texas. Cattle were found by hundreds, standing in snowdrifts, frozen to death.

28th, when the following officers were elected:

President—May Gray

Sec-Treasurer—Walden Smith.

With the first days of balmy spring weather occurring in the middle of February, the "marble season" got off to an early start.

However, as the fine weather continued and the snow, disappeared, baseball came in demand. Accordingly during the last week of February the boys of the school met in the High School room and proceeded to elect captains and draw up teams. Two senior and three junior teams were organized under the following captains. Seniors—Harry Olesky and Staunton Elder; Juniors—Russell Strand, John Goin and Norman Carey.

All teams are eagerly awaiting the return of the fine weather.

CITY VS. COUNTRY

One reason the city newspaper man can "print all the news, that is fit to print" is because he does not have to live in close daily association with his victims as does the country paper man. Another reason is because he has no opportunity for close up views of results of prying into intimate personal affairs and laying them bare to public gaze. It is no excuse to say the public demands such things. All of us want to know lots of things that are none of our business.—National Printer Journalist.

The Woman of It
"So you asked Geraldine to marry you?"
"Yes, but I didn't have any luck."
"Why didn't you tell her about your rich uncle?"
"I did. Geraldine's my aunt now!"
—Humorist (London).

W.O.T.U.

Our B.C. correspondent in "White
Ribbon Tidings," writes that the re-
cent splendid majority vote against
beer rooms in Victoria, didn't just
happen. Earnest prayers and strenu-
ous labor preceded the effort.

The W.O.T.U. of the United States
have changed their pledge to include
support of the 18th Amendment, and
during the last three years increased
their membership by 170,000. Be-
sides this increased membership,
they have on file at National Head-
quarters in Evanston, 650,000 young
men and women who have signed a
pledge of law observance and support
of the 18th Amendment, and more
than half a million more boys and
girls in juvenile societies are being
trained by them to observe the law.
Prohibition has saved to date 2,
500,000 lives as reported in Bureau of
Health.

Arrests for drunkenness in New
York city are less than 15 in 10,000
while arrests for the same offence in
Toronto are 106 in 10,000.

In the Saskatchewan Temperance
Contest under the auspices of the
Religious Education Council and the
W.O.T.U., more than 1500 papers
were written; 125 will compete for
Provincial honors.

In Ontario last year, 52,340 young
people reached the age of 21. During
the same period 39,346 new names
were added to the list of resident
permit holders. These names are our
Sunday school boys and girls. Kindly note
the word "resident." The liquor
people have the names and addresses
of each one. Do you care?

**CONFIRMATION SERVICES AT
ZION LUTHERAN CHURCH**

On Palm Sunday the congregation
of Zion Lutheran Church witnessed
the examination and confirmation of
this year's membership class, Elsa
and Ernst Elgert, and Zinovia
Bracev. After being questioned on
their knowledge of the fundamentals
of Christian doctrine, renewing their
baptismal vow and expressing their
desire to be received as members of
the Lutheran Church, these young
people were solemnly accepted and
confirmed by the pastor. In the con-
firmation address the latter on the
basis of Rev. 2:10, urged these young
Christians to be "faithful unto
death" faithful to Christ their
Savior and to His Word; faithful al-
so in their obedience and service, re-
membering that the Lord promised
unto them the "Crown of Life."

On Easter Sunday at 2:30 p.m., the
English membership class, consisting
of May and Vernon Schmidt of
Ponoka, David Appel, Alfred and
Edward Wolters, and Tony and Ar-
nold Roraph of Wetaskiwin, will be
examined and confirmed.

school; 3 p.m., Evangelistic service.
Wetaskiwin: 11 a.m., Sunday
school; 8 p.m., Easter program.
Tuesday, 8 p.m., Wetaskiwin, Bible
study.

Wednesday, 8 p.m., Prayer meet-
ing at New Sweden.

NORWEGIAN LUTHERAN
Rev. O. Asper, Pastor

Easter Sunday, April 5—Norweg-
ian-English services at Wetaskiwin
at 7:30 p.m.

Easter Monday, April 6—Norweg-
ian-English services at Wang at 11
a.m.

SWEDISH BAPTIST
P. M. Meyer, Minister

Wetaskiwin:
Good Friday, 8 p.m., Young People's
service.

Saturday, April 4, 3 p.m., Church
business meeting.

Sunday, April 5th—11 a.m., Sunday
school; 8 p.m., Easter service.
Haultain school—11 a.m., Easter
service.

Crooked Lake school—11 a.m., Sun-
day school; 2:30 p.m., Young People's
Easter service.

Monday, April 6th, 2 p.m., Easter
services at Calmar.

Thursday afternoon, April 9th—
The Crooked Lake Ladies' Aid will
meet at the home of Mr. and Mrs. L.
P. Nygren.

Friday, April 10th, 8 p.m.—Prayer
meeting.

It takes a man three months to
eat an amount of food equal to his
own weight.

A FREE DEMONSTRATION

finishing
On SATURDAY EVENING
April 4th, at 8 o'clock

Driard Hotel
GYMNASIUM

You may still enroll your boys between the ages
of ten and sixteen years, for the

Physical Culture

class which will be conducted by a competent
instructor JACK REINHART, under the sup-
ervision of Curt Smith.

Give your son written permission to
register at the DRIARD HOTEL GYMNAS-
IUM (down stairs) on SATURDAY, APRIL
4th, between the hours of 1:30 and 5 o'clock.
Remember, a physically fit body makes for
better study. 140 boys have enrolled, but there
is room for more, so do not miss your chance.

HIGH SCHOOL BOYS, between ages 16 and 20 have started
in a separate class. The fee is \$1.50 a month including shower
bath. There is room for more. Join now, before the advance
practice work begins.

GENTLEMEN, avail yourselves of the
opportunity to get in physical trim by
joining the physical training culture
class, either afternoon or evening.

To make Free Training possible for
the children, a charge of \$5.00 per month
(two lessons a week, including shower
bath and towels) will be made. Enroll
at once at the Driard Hotel office.

These classes are private, and students
are not subjected to the critical public
eyes during training.

Alcohol rub may be taken after steam or
shower bath at any time. Members of
classes, 50c; non-members, 75c.

Classes for LADIES, GIRLS and SMALL CHILDREN will be considered at an early date
Rings, trapeze, ladders, climbing ropes, boxing gloves, dumb-bells, etc., have arrived
and training in these advanced lines will commence at once.

WHEN I RESIGNED from the school board, I told the children
I would still be with them, and with the ultimate goal of a gym-
nasium in connection with schools in mind, I am going to the ex-
pense of organizing the physical culture classes to show what
physical training will do to the young body, and I trust that I am
supported by the public unanimously.

Yours very truly,
CURT SMITH.

PLEBISCITE PLEA ON BEER
PARLORS TO BE HELD OVER

Edmonton, March 30.—Petition of
Alberta Prohibition Association for
a plebiscite on the question of
whether beer parlors should be con-
tinued, will be held over in order that
a reference to the courts may be
made on technical points.

This was decided when the Alberta
Legislature, shortly before proro-
gation, approved report of the com-
mittee on standing orders, and private
bills.

It was provided, however, that the
petition can again come before the
house at its next session.

The long-standing School Act was
finally given third reading and in
moving the motion to this effect,
Hon. Perrin Baker, Minister of Edu-
cation, said he did so with mixed
feelings as he felt the legislation
would not be the same without a
school bill to fight over.

On Saturday evening Liberal mem-
bers of the House were guests of
their House leader, George H. Web-
ster, Calgary, at dinner at the Mac-
donald hotel and the leader was the
recipient of a handsome writing set
from his followers.

The House convened on Thursday,
January 29, thus making the session
more than eight weeks in length.

Three sittings were held to wind
up business on Saturday and save a
week-end adjournment.

ALBERTA HOMESTEAD REGU-
LATIONS CONTAINED IN ACT

Edmonton, Alta., March 30.—Al-
berta will permit homestead entry in
certain specified areas but restrict
this to persons of the full age of 17
years, British subjects or with the
intention of becoming British sub-
jects, who have resided in the province
for a period of at least three
years.

Regulations to this effect were
approved by the Provincial house at
its sitting Saturday afternoon, when
the new Alberta Lands Act was fi-
nally passed.

BORN

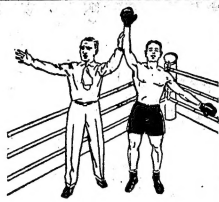

POPOLOSKI — In the Wetaskiwin
hospital on March 28th, to Mr. and
Mrs. Popoloski, a son.

TRAUTMAN — In the Wetaskiwin
hospital on March 31st, to Mr. and
Mrs. R. Trautman, of New Norway,
a son.

APPRECIATION

The Asker Play and Minstrel Com-
pany wish to express their appre-
ciation of the wonderful reception given
them by their old friends at Malmö.
Although the attendance was small
due to the inclement weather, they
had a very enjoyable time.

Florida has an area of 35,111,040
acres of which 2,297,271 have been
utilized for agricultural purposes.

Mr. Jack Reinhardt gradu-
ated from the Physical Cul-
ture training school of Mr.
Farmer Burns, New York.
He took a special course in
callisthenics, and has been
physical instructor on the
boats sailing from the U.S. to
the Hawaiian Islands, to first
and second class passengers.
He also has trained with
Louis Paranties Boxing
School, supervising boy box-
ers. He has been a contest-
ant in the C. C. Pyals
"Union Derby cross contin-
ent go-as-you-please contest."
He was also associated with
the Philadelphia Keats Box-
ing Club, and was recom-
mended to the doctors in the
hospitals to pose as physical
model in the hospitals to pa-
tients. He also took a
course in massage in Phila-
delphia turkish baths. His
experience in athletics is
varied and extensive. To see
his physique is convincing.
